Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

Amendments to the Claims:

1. (Currently Amended) A computer-implemented method comprising:

using a computer system over the Internet to register a customer with an alternate

delivery location (ADL) service provider to receive a product at an alternative delivery location

(ADL) other than the customer's home or business address before purchase of the product by the

customer, wherein the customer selects the ADL from a list of ADLs provided by the computer

system and the ADL is stored in memory of the computer system;

providing the customer a web browser enhancement tool that resides in the

customer's browser, the web browser enhancement tool is configured to record and retain

the customer's selected ADL from the list of ADLs;

retrieving the ADL from the web browser enhancement tool memory for use in

shipping the product to the customer upon notification to the computer system by a vendor

computer system over the Internet that the customer has purchased the product;

providing the ADL to the vender computer system to use as a shipping location

for the product purchased by the customer via the [[a]] web browser enhancement tool that

automatically populating populates form fields of a vendor web page to provide the ADL

address for upload to the vendor computer system; and

receiving the product at the ADL for pickup by the customer, wherein the product

is purchased by the customer and is shipped via a carrier not associated with the ADL service

provider.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

2. (Previously Presented) A method as claimed in claim 1 wherein the step of using a

computer system to register the customer is performed by the customer accessing the computer

system via a website of an ADL service provider over the Internet using a web browser.

3. (Previously Presented) A method as claimed in claim 1 wherein the customer selects the

ADL most convenient to the customer from the list of ADLs.

4. - 6. (Canceled)

7. (Currently Amended) A method as claimed in claim 1 wherein the step of using a computer

system to register the customer involves the customer providing the computer system

identification information of at least one retriever authorized by the customer to pick up the

product at the ADL and the computer system storing the identification information in the

memory, the method further comprising:

verifying at the ADL that the retriever is authorized to receive the product from the

identification information stored in the memory.

8. (**Original**) A method as claimed in claim 1 further comprising:

notifying the customer that the product is available for pickup at the ADL.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

9. (Currently Amended) A method as claimed in claim 8 wherein the step of using a computer

system to register the customer involves the customer providing information of a preferred media

for receiving notification that the product has arrived at the ADL to the computer system and the

computer system storing the information of the preferred notification media in the memory, the

preferred notification media comprising at least one of telephone, email, pager, and the notifying

is performed using the customer's preferred media.

10. (Previously Presented) A method as claimed in claim 9 wherein an alternate delivery

location tracking computer system (ATS) retrieves the information of the preferred indication

media from the memory and notifies the customer of arrival of the product at the ADL via the

preferred indication media.

11. (Previously Presented) A method as claimed in claim 9 wherein the ADL staff retrieves the

information of the preferred indication media from the memory and notifies the customer that the

product is available for pick up at the ADL via the preferred indication media.

12. (Previously Presented) A method as claimed in claim 9 wherein the vendor retrieves the

information of the preferred indication media from the memory and notifies the customer when

the product is available for pick up at the ADL via the preferred indication media.

Reply to Office Action of May 10, 2010

13. (**Previously Presented**) A method as claimed in claim 1 further comprising:

accessing an alternate delivery location tracking computer system (ATS) over the

Internet to determine a status of the product in shipment from a vendor of the product to the

ADL.

14. (Previously Presented) A method as claimed in claim 13 further comprising:

providing the customer with an authorization number via the computer system

that the customer uses to access the ATS over the Internet to determine the status of the product

during transit from the vendor to the ADL.

15. (Original) A method as claimed in claim 13 wherein the accessing is performed by ADL

staff to determine the status of packages sent to, held by, and bound for the ADL.

16. (Currently Amended) A method as claimed in claim 13 wherein the ATS is used by ADL

staff to log the date of arrival of the package at the ADL in the memory and to track how long

the package has been held by the ADL.

17. (Currently Amended) A method as claimed in claim 13 wherein the ATS is accessed by the

ADL staff using an ADL computer system to record the identity of a retriever of the product in

the memory.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

18. (Original) A method as claimed in claim 13 wherein the customer provides an address of the

ADL location as the address for shipping the product in purchasing the product from a vendor.

19. (Previously Presented) A method as claimed in claim 13 wherein the step of using the

computer system to register the customer involves the customer downloading the web browser

enhancement tool.

20. (Withdrawn) A method comprising:

offering at a vendor website to deliver a product purchased by a customer to an

alternate delivery location (ADL) other than the customer's home or business address.

21. (Withdrawn) A method as claimed in claim 20 the method further comprising:

receiving at the vendor website an indication that the customer desires to have the

product shipped to an ADL; and

shipping the product purchased by the customer to the ADL for pickup by the

customer.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

22. (Withdrawn) A method as claimed in claim 21 the method further comprising:

receiving customer contact information from the customer during purchase of the

product at the vendor website; and

notifying the customer that the product is available for pickup at the ADL using

the contact information.

23. (Withdrawn) A method as claimed in claim 22 wherein the contact information is received

by the vendor's computer system during purchase of the product by the customer, the method

further comprising:

transmitting the contact information from the vendor to a carrier; and

transmitting the contact information from the carrier to the ADL for use by ADL

staff in notifying the customer.

24. (Withdrawn) A method as claimed in claim 22 further comprising:

receiving data indicating the customer's preferred media for receiving notification

that the product has arrived at the ADL, the preferred notification media comprising at least one

of telephone, email, and pager, the notifying performed using the customer's preferred media.

25. (Withdrawn) A method as claimed in claim 22 further comprising:

receiving identification data identifying at least one retriever authorized by the

customer to pick up the product at the ADL;

7 of 25

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

providing the identification data to the ADL service provider; and

verifying the identity of the retriever at the ADL using the identification data.

26. (Withdrawn) A method as claimed in claim 22 further comprising:

holding the product at the ADL for a specified holding period;

providing the product to the customer if the customer picks up the package from

the ADL during the holding period; and

shipping the product from the ADL back to the vendor if the customer does not

pick up the product during the holding period.

27. (Withdrawn) A method as claimed in claim 22 further comprising:

accessing an alternate delivery location tracking system (ATS) to determine the

status of the product in shipment from the vendor of the product to the ADL for delivery to the

customer.

28. (Withdrawn) A method as claimed in claim 27 wherein the ATS can be accessed by a

customer via the Internet using a computer.

29. (Withdrawn) A method as claimed in claim 27 wherein the ATS can be accessed by ADL

staff to determine the status of packages sent to, held by, and bound for the ADL.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

30. (Withdrawn) A method as claimed in claim 27 wherein the ATS can be used by ADL staff

to log the date of arrival of the package at the ADL and track how long the package has been

held by the ADL.

31. (Withdrawn) A method as claimed in claim 27 wherein the ATS can be accessed by the

ADL staff using an ADL computer system to record the identity of a retriever of the product.

32. (Withdrawn) A method as claimed in claim 21 wherein the customer uses the address of the

ADL as the address for shipping the product in the process of purchasing the product from the

vendor via the vendor's website.

33. (Withdrawn) A method comprising:

offering with a mail order catalog service to deliver a product purchased by a

customer to an alternate delivery location (ADL) other than the customer's home or business

address.

34. (Withdrawn) A method comprising:

offering at a carrier website to deliver a product to an alternate delivery location

(ADL) other than a person's home or business address.

35. (Withdrawn) A method comprising:

9 of 25

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

offering at a retail store to deliver a product to an alternate delivery location

(ADL) other than a person's home or business address.

36. (Withdrawn) A method comprising:

attempting to deliver a package to a customer via delivery to the customer's home

or business;

leaving a message at the customer's home or business advising the customer to

contact the carrier to specify whether the customer desires to receive direct delivery of the

package from the carrier or accept delivery of the package at an alternate delivery location

(ADL) identified in the message to pick up the package;

delivering the package to the ADL for pick up by the customer if the customer

contacts the carrier to indicate that the customer desires to receive the package at the ADL; and

redelivering the package to the customer's home or business if the customer

indicates the customer desires to receive the package at the customer's home or business.

37. (Withdrawn) A method as claimed in claim 36 wherein the message includes a telephone

number that can be used by the customer to contact the carrier to indicate whether the package is

to be delivered to the ADL or to the customer's home or business address.

38. (Withdrawn) A method as claimed in claim 36 wherein the message includes an Internet

address that can be used by the customer to point a browser to the carrier's website to indicate

10 of 25

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

whether the package should be delivered to the ADL for pickup by the customer or redelivered to the customer's home or business.

39. (Withdrawn) A method as claimed in claim 36 further comprising:

if the customer selects delivery at the ADL,

holding the product at the ADL for a specified holding period;

providing the product to the customer if the customer picks up the package from

the ADL during the holding period; and

shipping the product from the ADL back to the vendor if the customer does not

pick up the product during the holding period.

40. (Withdrawn) A method as claimed in claim 36 further comprising:

accessing an alternate delivery location tracking system (ATS) to determine the

status of the product in shipment by the carrier from the vendor of the product to the ADL for

delivery to the customer.

41. (Withdrawn) A method as claimed in claim 36 wherein the ATS can be accessed by a

customer via the Internet using a computer.

42. (Withdrawn) A method as claimed in claim 36 wherein the ATS can be accessed by ADL

staff to determine the status of packages sent to, held by, and bound for the ADL.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

43. (Withdrawn) A method as claimed in claim 36 wherein the ATS can be used by ADL staff

to log the date of arrival of the package at the ADL and track how long the package has been

held by the ADL.

44. (Withdrawn) A method as claimed in claim 36 wherein the ATS can be accessed and used

by the ADL staff using an ADL computer system to record the identity of a retriever of the

product.

45. (Withdrawn) A method comprising:

shipping a package containing the product from a sender to an alternate delivery

location (ADL) other than a recipient's home or business address for delivery to the recipient, the

shipping not related to purchase of the product.

46. (Withdrawn) A method as claimed in claim 45 wherein the sender registers with an ADL

solution provider to have the package shipped to the ADL.

47. (Withdrawn) A method as claimed in claim 46 wherein the sender registers using a

computer to access a website of the ADL solution provider.

48. (Withdrawn) A method as claimed in claim 46 wherein the sender selects the ADL from a

list of ADLs for delivery of the package.

49. (Withdrawn) A method as claimed in claim 45 wherein the sender provides notification data

to the ADL solution provider for use in notifying the recipient that the package is available for

pick up at the ADL.

50. (Withdrawn) A method as claimed in claim 45 wherein the sender notification data is

provided to the recipient using at least one of telephone, email, and Internet media.

51. (Withdrawn) A method as claimed in claim 45 wherein the recipient registers to pick up the

package from an ADL solution provider at the ADL.

52. (Withdrawn) A method as claimed in claim 51 wherein the recipient registers using a

computer to access a website of the ADL solution provider.

53. (Withdrawn) A method as claimed in claim 52 wherein the recipient selects the ADL from a

list of ADLs for delivery of the package.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

54. (Withdrawn) A method as claimed in claim 45 wherein the recipient provides notification

data to the ADL solution provider for use in notifying the recipient that the package is available

for pick up at the ADL.

55. (Withdrawn) A method as claimed in claim 54 wherein the recipient specifies preferred

notification media including at least one of telephone, email, and Internet.

56. (Withdrawn) A method as claimed in claim 45 wherein the recipient provides identification

data indicating the identity of a retriever authorized by the recipient to receive the package, the

method further comprising:

verifying the identification of the retriever at the ADL before providing the

package to the recipient.

57. (Withdrawn) A method as claimed in claim 56 further comprising:

recording the name of the recipient picking up the package at the ADL.

58. (Withdrawn) A method as claimed in claim 45 further comprising:

providing the product to the recipient if the recipient picks up the package from

the ADL during the holding period; and

shipping the product from the ADL back to the vendor if the recipient does not

pick up the product during the holding period.

59. (Withdrawn) A method as claimed in claim 58 further comprising:

accessing an alternate delivery location tracking system (ATS) to determine the

status of the product in shipment by the carrier from the sender to the ADL for delivery to the

recipient.

60. (Withdrawn) A method as claimed in claim 59 wherein the ATS can be accessed by a

recipient via the Internet using a computer.

61. (Withdrawn) A method as claimed in claim 59 wherein the ATS can be accessed by ADL

staff to determine the status of packages sent to, held by, and bound for the ADL.

62. (Withdrawn) A method as claimed in claim 59 wherein the ATS can be used by ADL staff

to log the date of arrival of the package at the ADL and track how long the package has been

held by the ADL.

63. (Withdrawn) A method as claimed in claim 59 wherein the ATS can be accessed and used

by the ADL staff using an ADL computer system to record the identity of a retriever of the

product.

64. (Withdrawn) A method for completing a shipment, comprising:

15 of 25

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

accepting a package at a designated delivery location;

receiving authorized package retriever data;

holding the package at the designated delivery location;

confirming a package retriever meets authorized identification requirements for

the package; and

transferring the package to retriever if the requirements are met.

65. (Withdrawn) The method of claim 64 further comprising:

notifying the package retriever of the receipt of the package at the designated

delivery location.

66. (Withdrawn) The method of claim 64 further comprising:

returning the package to a sender if the requirements are not met or the package

retriever fails to claim, or rejects, the package.

67. (Withdrawn) A method for requesting shipment services comprising the steps of:

providing address data for an alternate delivery location other than a person's

home or business address for delivery of a package; and

providing authorized package retriever data identifying a person to whom the

package should be surrendered at the delivery location.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

68. (Withdrawn) A method comprising:

recording at least a package identifier and authorized retriever information

including at least one of a retriever identity, retriever contact information, and required retriever

identification type.

69. (Withdrawn) A method comprising:

allowing a shipper to view information corresponding to all packages sent to

package holding locations by that shipper;

allowing a carrier to view all packages carried to package holding locations

regardless of shipper, and information corresponding to such packages; and

allowing a package holding location to view all packages sent to or bound for said

package holding location and information corresponding to such packages.

70. (Withdrawn) A method for obtaining an item utilizing a computer network, comprising:

registering user preferences for delivery of items to a holding location;

providing the preferences to a seller of an item upon purchase by the user;

providing identification of the user or an authorized retriever to the holding

location;

providing access to item status information to the user, the holding location, the

seller, and/or a carrier;

notifying the user or the authorized retriever of arrival of the item at the holding

17 of 25

Reply to Office Action of May 10, 2010

location; and

authorizing release of the item based on presentation of matching credentials by

the user or the authorized retriever.

71. (Withdrawn) A system for use by at least one customer to purchase a product via a network,

the system comprising:

a vendor computer system providing a vendor website for access by the

customer via the network to purchase a product and select an alternate delivery location (ADL)

other than the customer's home or business to which to send the product for pick up by the

customer.

72. (Withdrawn) A system as claimed in claim 71 further comprising:

at least one customer computer connected to communicate with the vendor

computer system via the network, the computer executing a browser to permit the customer to

purchase the product via the network using the vendor website.

73. (Withdrawn) A system as claimed in claim 71 further comprising:

an ADL tracking system (ATS) connected to communicate with the

vendor computer system via the network, and receiving a signal from the vendor computer

system via the network indicating that the customer has purchased a product, the ATS tracking

the product from the vendor to the ADL.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

74. (Withdrawn) A system as claimed in claim 73 wherein the ATS further tracks the time of

holding the package at the ADL for pick up by the customer.

75. (Withdrawn) A system as claimed in claim 73 wherein the ATS further tracks the return of

the product from the customer to the vendor if the customer does not pick up the product.

76. (Withdrawn) A system as claimed in claim 73 wherein the ATS receives and stores

identification data identifying a retriever authorized by the customer to pick up the product at the

ADL on behalf of the customer, and staff at the ADL uses the identification data to verify the

identity of the retriever picking up the product at the ADL.

77. (Withdrawn) A system as claimed in claim 73 wherein the ATS receives and stores

notification data for notifying the customer that the product is available for pick up at the ADL.

78. (Withdrawn) A system as claimed in claim 73 wherein the notification data indicates the

customer's preferred media for receiving notification of the availability of the product for pick

up at the ADL, the preferred media including at least one of telephone, email, and pager.

79. (Withdrawn) A system interacting with a vendor computer system via a network, the vendor

computer system used by a customer to purchase a product, the system comprising:

19 of 25

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

an alternate delivery location tracking system (ATS) connected to communicate

with the vendor computer system via the network, and receiving a signal from the vendor

computer system via the network indicating that the customer has purchased the product, the

ATS tracking the product in shipment from the vendor to an alternate delivery location (ADL)

other than a customer's home or business for delivery of the product to the customer.

80. (Withdrawn) A system as claimed in claim 79 wherein the ATS further tracks the time of

holding the product at the ADL for pick up by the customer.

81. (Withdrawn) A system as claimed in claim 79 wherein the ATS further tracks the return of

the product from the customer to the vendor if the customer does not pick up the product.

82. (Withdrawn) A system as claimed in claim 79 wherein the ATS receives and stores

identification data identifying a retriever authorized by the customer to pick up the product at the

ADL on behalf of the customer, and staff at the ADL uses the identification data to verify the

identity of the retriever picking up the product at the ADL.

83. (Withdrawn) A system as claimed in claim 79 wherein the ATS receives and stores

notification data for notifying the customer that the product is available for pick up at the ADL.

Amdt. dated August 6, 2010

Reply to Office Action of May 10, 2010

84. (Withdrawn) A system as claimed in claim 83 wherein the notification data indicates the

customer's preferred media for receiving notification of the availability of the product for pick

up at the ADL, the preferred media including at least one of telephone, email, and pager.

85. (Withdrawn) A system as claimed in claim 79 further comprising:

a vendor computer system providing a vendor website for access by the

customer via the network to purchase a product and select an alternate delivery location (ADL)

other than the customer's home or business to which to send the product for pick up by the

customer.

86. (Withdrawn) A system as claimed in claim 85 further comprising:

at least one customer computer connected to communicate with the vendor

computer system via the network, the computer executing a browser to permit the customer to

purchase the product via the network using the vendor website.
